COMMERCIAL AUDIO-VISUAL SOLUTIONS (FOR CORPORATE)

Visitors and Experience Centre solutions

”Let's Enhance Your AV Offerings for Visitor and Experience Centers“

Interactive Displays and Kiosks: Engage your audience with touchscreen magic. From informative kiosks to interactive maps, we create dynamic experiences that captivate and inform

Projection Mapping: Turn any surface into a canvas for breathtaking visuals. Our projection mapping transforms spaces, creating unforgettable moments and brand impressions

Augmented and Virtual Reality: Immerse your visitors in new worlds. Our AR and VR solutions offer interactive journeys, educational experiences, and entertainment that leave a lasting impact

Immersive Audio Systems: Surround your audience in sound. Our high-quality audio systems create rich, atmospheric experiences that enhance every moment

LED Video Walls: Make a bold statement with stunning visuals. Our LED video walls deliver high-impact content that commands attention and drives engagement

Holographic Displays: Create mind-blowing experiences with 3D holograms. Our holographic displays showcase products, tell stories, and leave a lasting impression

Content Management System (CMS): Easily manage and update your digital content across all displays. Our CMS gives you control and flexibility

Wayfinding Solutions: Guide visitors effortlessly through your space. Our digital signage and interactive maps provide clear directions and enhance the overall experience

Thematic Lighting and Environmental Controls: Create atmosphere and mood with dynamic lighting and environmental effects. Our solutions transform spaces to match any occasion or theme

Infinity Interactive Wall solutions

“Reimagine your space with our AV Infinity Interactive Walls”

Digital Check-In: By utilizing kiosks, tablets, or mobile apps, visitors can quickly and easily register themselves, reducing wait times and improving overall efficiency

Visitor Identification and Verification: We utilize webcams or cameras to capture visitor photos and integrate ID scanners for driver's licenses or passports, ensuring accurate and secure visitor registration

Pre-Registration: We capture clear visitor photos and integrate advanced ID scanning technology for secure access control

Security Features: We employ robust security measures to safeguard your premises. Our system captures clear visitor photos and integrates seamlessly with ID scanners for thorough verification

Data Management and Reporting: Our system meticulously records your visitor entry and exit times, providing detailed logs for security audits and compliance. Generate customizable reports to suit your specific requirements

Integration with Access Control Systems: Our system provides in-depth insights into your visitor behavior through meticulous logging of entry and exit times. Generate customizable reports for comprehensive security audits and compliance purposes

Notifications and Alerts: Our system empowers hosts with real-time notifications of visitor arrivals. Additionally, it enables instant alerts to security teams in case of unauthorized access attempts, ensuring a secure environment

Multi-Touch Interaction: We provide you intuitive touch and gesture controls allow for dynamic interaction and seamless information sharing

Seamless Display: We offer you high-resolution displays feature ultra-thin bezels for seamless, expansive viewing. Customizable to any size or shape, these displays create captivating visual experiences tailored to your space

Integration Capabilities: Our versatile software platforms empower you to create and manage engaging content. Seamless integration with sensors and IoT devices enables interactive and data-driven experiences

Advanced Audio Integration: Experience unparalleled sound quality with our high-performance audio systems. Featuring directional sound capabilities, our solutions create immersive audio environments tailored to your specific needs

COMMERCIAL AUDIO-VISUAL SOLUTIONS (FOR CORPORATE)

COMMERCIAL AUDIO-VISUAL SOLUTIONS

Business and corporate environment solutions
“!Freedom from tech frustration starts HERE”

1

AV Conference room solutions

High-Quality Audio-Visual Systems: Our conference rooms feature breathtaking visuals on high-definition displays, pristine audio quality with advanced speakers and microphones, and flawless video conferencing for seamless collaboration, no matter the distance

Touch-Panel Control Systems: Easily adjust lighting, screens, audio, and video conferencing settings from one central location. This streamlined approach ensures a smooth and efficient meeting experience for everyone involved

Automated Systems: Our intuitive controls give you command over lighting, displays, audio, and video conferencing, ensuring a seamless and distraction-free environment. Maximize your meeting time and productivity with our user-friendly system

Secure Communication Systems: Our advanced encryption and security features safeguard your confidential discussions and presentations involving sensitive information, giving you peace of mind

Notifications and Alerts: Our system empowers hosts with real-time notifications of visitor arrivals. Additionally, it enables instant alerts to security teams in case of unauthorized access attempts, ensuring a secure environment

2

Workspace Management Solutions

Upgrade your workspace with the latest technology! Our Workspace Management Solution integrates AV-equipped meeting rooms, multipurpose rooms, and training rooms with a streamlined room booking system. We also offer a Visitor Management System, creating a tech-driven workspace ecosystem

:AV Multipurpose Room Solutions

Our AV Multipurpose Room Solutions offer you unmatched flexibility and functionality for a variety of uses. We leverage modular AV systems, seamless wireless connectivity, and a range of multiple display options (projectors, high-resolution screens) to adapt the room to your needs. Centralized control systems with user-friendly interfaces make operating the equipment a breeze, allowing you to focus on what matters most

AV EDUCATION SOLUTIONS

Online learning Solutions

“Unleash the Power of Modern Learning: Your All-in-One Education Solution”

Seamless Video Conferencing Platforms: Connect students and instructors in real time. No matter the distance, we empower seamless interaction and collaboration

Robust Learning Management Systems (LMS): We offer tools to effortlessly organize course materials, facilitate seamless communication, and streamline class management for both in-person and online learning environments

Versatile Lecture Capture and Recording: Our platform allows you to capture and share lessons for convenient access and review, promoting flexible learning and personalized study habits

Engaging Content Creation Tools: Our platform empowers you to craft interactive and visually stunning learning materials that foster deeper engagement and understanding

High-Quality Audio Solutions: We deliver crystal-clear audio that enhances communication and creates an immersive learning experience

Interactive Learning Tools: We leverage polls, quizzes, and gamification to foster active participation and solidify knowledge retention

Cutting-Edge VR and AR: We help you integrate cutting-edge virtual and augmented reality experiences to create engaging and interactive learning environments

Comprehensive Assessment and Feedback Tools: Our platform offers diverse evaluation options to help instructors provide personalized feedback and empower students to monitor their learning journey

AV EDUCATION SOLUTIONS

AV Healthcare Solutions

**“We empower healthcare institutions to elevate patient care, communication”
“and education with a comprehensive suite of AV solutions**

Digital Signage and Wayfinding: We provide captivating displays in high-traffic areas to share essential information, directions, and event highlights. Our interactive kiosks empower guests with self-service check-in and concierge services, creating a seamless and efficient arrival experience

In-Room Entertainment Systems: Our smart TVs offer a world of possibilities, from streaming their favorite shows to controlling room settings with a simple touch. By seamlessly integrating with mobile devices, we ensure a personalized and connected guest experience

Conference and Event Spaces: We deliver exceptional audio and video experiences for meetings, conferences, and events of all sizes. Our wireless presentation tools ensure seamless content sharing, while our advanced lighting and sound control systems bring your vision to life

Room Control and Automation: Enjoy effortless management of lighting, temperature, and curtains through intuitive touch panels or convenient mobile apps. For ultimate convenience, integrate voice commands to effortlessly adjust room settings

Event Streaming and Recording: Capture and share your special moments with professional-grade live streaming and recording services for weddings, conferences, and performances. Our high-quality cameras and robust streaming platforms ensure a seamless experience for both in-person and remote attendees

Virtual Reality (VR) and Augmented Reality (AR): Our VR tours offer a captivating exploration of hotel amenities and local attractions, while our AR applications deliver interactive and engaging moments, enhancing your guests' stay and elevating your brand

Security and Surveillance: We design comprehensive systems that combine cameras, access control, and other technologies to monitor and protect your premises, providing peace of mind and a secure environment
